Re: Response to Letter Sent Regarding October Quarterly Report (7/1/09 to 10/31/09)

Dear Ms. Grant

This letter is in response to the Commissions November 5 2009 letter to Doggett for US Congress. The Committee changed software providers last year, and has encountered a few technical glitches, including a memo item problem identified in the November 5 letter. The five itemized contributions identified were all designated as memo items, since the individuals contributed through checks drawn on partnership accounts. The person performing data entry inadvertently neglected to link those memo items to the records representing the contributions made by the individual, which resulted in the omission of the election cycle-to-date totals. That software issue has been addressed, and the election cycle-to-date totals are included in the amended report.

Attached is an amended report that addresses the items in the November 5 letter.

Sincerely,

James Cousar
Treasurer
